

Dear ACTRA Scholarship Program,

I am very grateful for the scholarship I have received to help me in the 2011-2012 school year. The scholarship program is just another reason why ACTRA is a great association for families and some even better team roping. I have been an ACTRA member for six years now and have some of my best memories from it. Now not being able to rope as much as I like, I am attending Cuesta College in San Luis Obispo from where I will transfer to Fresno State to study Agricultural Communications. This scholarship is a huge help for me to be able to achieve my goals and pursue my higher education. Thank you again ACTRA for your generosity and help for several in California and across the country and thank you for the great association and being able to rope with family and friends.

*Sincerely,
Julie Blach*
